Introducing the Corsair's Cove novella series

When four brainstorming authors get together, the sparks can really fly—in a good way! The Corsair's Cove Chocolate Shop Series is a brand-new collection of sweet contemporary romance novellas with a sprinkle of the paranormal, and it's making a great first impression.

"I really enjoyed all the characters, and loved the setting," one reader of *Kiss at the Cove* posted on Amazon. "Romance, humour, and chocolate—what's not to love?"

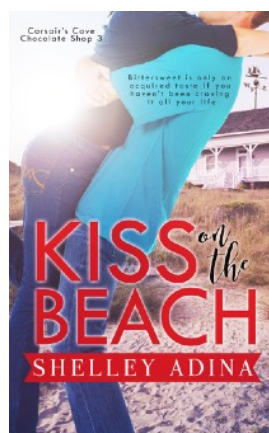

Another said, "Looking for a dream home? Then Corsair's Cove is the place to be. *Kiss at the Cove* is set in an appealing Pacific Northwest seaside town, so beautifully described that I immediately wanted to move there."

That's how the writers feel about the Corsair's Cove chocolate shop series too. They had a great time creating the people and stories of the small coastal town and that translates to a lot of fun on the page.

"We had a blast with this collaboration because we respect each other so much," says Rachel Goldsworthy, who makes her debut with *Kiss in the Wind*. "We could toss around ideas, no matter how wild they were, and sometimes they'd fly."

RITA Award winner Shelley Adina adds, "There are certainly no divas in this group!"

The party started over a glass of wine. Rachel Goldsworthy suggested a chocolate shop, Lee McKenzie was all about family, Sharon Ashwood brought along a pirate ghost, and then Shelley Adina said, "Hey! We'd better have a parrot, too!"

And before you could say, "Avast there, matey," they'd set sail for Corsair's Cove, where four cousins inherit Great Aunt Ruby's chocolate shop, her very chatty parrot, and the resident ghost. And did we mention there's a GQ-handsome marine scientist, a team-building tavern owner, a ship-mending carpenter, and a swashbuckling phantom?

"Love is a sweet adventure—especially in Corsair's Cove!"
—Bella Andre, *New York Times* bestselling author of *The Sullivans*

"The expansion of Rachel's initial concept for four chocolate-themed books—sweet, semisweet, bittersweet, and dark—to encompass a cast of engaging characters happened in the blink of an eye," says Harlequin author Lee McKenzie, whose novella *Kiss at the Cove* launches the series. "For me, that was the most exciting aspect of this collaboration."

"We all bring something to the table," agrees RITA Award winner Sharon Ashwood. "The storytelling is seamless, although there is a unique mix of voices behind it. That's what makes the series fresh and will captivate readers."
